

## Icing and Decision Making for the General Aviation Pilot

The Pacific Northwest is one of the world famous icing environments. Anyone who has spent much time flying in IMC here has a story to tell about an icing encounter. General aviation pilots need to understand what to expect in winter weather and how to quickly make the right choice for a positive outcome. Review the NASA Icing Video and hear about personal icing encounters presented by Geoff Christensen an experienced CFI and charter pilot and Mary Schu CFI, DPE and corporate pilot. Discussions will include ways to avoid ice and the correct actions to take when aircraft icing becomes an in flight reality.

**Directions:** Aurora Aviation is located on the east side of the Aurora Airport. When flying in for the event, use the A2 taxiway exit. If driving, use the Blue Gate entrance off of Airport Road.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

### Event Details

**Wed, Mar 5, 2014 - 6:30 pm**  
**Aurora Aviation Inc / Aurora**  
**Airport**

22785 Airport Road NE  
Aurora, OR 97002
